b) Daily Financing Fee

Markets with Underlying Instruments of Shares, Indices or Commodities

If you hold an Open Position overnight we will normally charge you a Daily Financing Fee on Long Positions and we will pay you the Daily Financing Fee on Short Positions.

The Daily Financing Fee applies to the value of your Open Position, less the Margin Requirement. We calculate the Daily Financing Fee as follows:

$F = V \times I / b$, where:

F = Daily Financing Fee

V = value of equivalent (quantity x end of day closing price)

I = applicable Financing Rate

b = day basis for currency (365 for GBP and AUD, 360 for all other currencies)

There may be instances when a Daily Financing Fee is charged to you on Short Positions, rather than paid to you. This may occur if LIBOR (or RBA IOCR for Australia) is at an exceptionally low rate. We will notify you if this situation occurs.

The daily financing fee will be applied to your account each day that you hold an open position (including weekend days).

Key Service Features

The Financing Rates used are outlined in the table below.

Country of the Underlying Instrument	Long Financing	Short Financing
UK	LIBOR + 2.5%	LIBOR – 2.5%
US	LIBOR + 2.5%	LIBOR - 2.5%
EU	LIBOR + 2.5%	LIBOR - 2.5%
Australia	RBA IOCR + 2.5%	RBA IOCR - 2.5%
Other International Markets	Contact Client Management	

Financing Rate information for Underlying Instruments located in other jurisdictions can be obtained by contacting Client Management.

Markets with Underlying Instruments of Currencies

For non-expiring CFD Markets which have Underlying Instruments of Currencies, the Daily Financing Fee is calculated by using the one day interest rate differentials for the two currencies concerned. We then apply the market rate premium or discount, together with our overnight charge which will have a minimum or maximum amount.

Under normal Market conditions, you will receive the Daily Financing Fee if you buy the currency with the higher interest rate and you will pay a Daily Financing Fee if you buy the currency with the lower interest rate.

Under certain circumstances there may be instances where a Daily Financing Fee is charged, rather than paid, on Open Positions when you hold a Long Position in the higher yielding currency. This may occur when the underlying interest rate markets exhibit exceptionally wide bid/ask spreads.

The financing posting/adjustment will be made in the second currency of the currency pair (sometimes referred to as the 'Quote' currency). For example, in the case of EUR/CAD, the financing adjustment would be made in CAD.

Currency trades settle on a T + 2 basis. On each Wednesday when Open Positions are rolled we will apply a fee equivalent to the Daily Financing Fee for the period Friday - Monday. For USD/CAD Trades, the currency settles on a T + 1 basis and on each Thursday when Open Positions are rolled we will apply a fee equivalent to the Daily Financing Fee for the period Friday - Monday. For all Trades, the Daily Financing Fee will be adjusted to include Non-business days which affect either currency in a Trade.

c) Special/Short Borrowing Charge

If you have a Short Position with an Underlying Instrument that is a share, we may hedge your Open Position by taking a short position in the share in external markets or directly with another financial institution. There may be instances where the amount of stock available to borrow will be limited or otherwise in short supply. As a result, we may incur a special borrowing charge and we reserve the right to pass this on to you. This charge is at the discretion of our hedging partners and is subject to fluctuation. We will notify you as soon as practicable if we seek to pass any such charge on to you.

The basis of the special borrowing charge is an annual percentage rate based on the total value of our hedge trade in external markets and is applied on a daily basis. For example a 10% charge on a £10,000 value Open Position would incur an annual charge of £1,000 levied at £2.74 per day.

d) Guaranteed Stop Loss Order Premium

We will charge an additional spread or premium when you place a Guaranteed Stop Loss Order. You can find details of this charge for a Market in the relevant Market Information, which is available on the Trading Platform or by calling Client Management.

e) Fee and Commission Sharing Arrangements

We may pay to third parties (for example Introducers, Appointed Representatives (as defined by FSA Rules), etc.) a portion of any dealing commission, Spread, Daily Financing Fee, and/or any other charge you may pay. Typically this will be a percentage of the amount we receive from you. Further details of fee and commission sharing arrangements will be provided on request.
